Pacific Gas and Electric Company

WE DELIVER ENERGY.SM

Background:
Pacific Gas and Electric Company (PG&E), incorporated in California in 1905, is one of the largest combination natural gas and electric utilities in the United States. Based in San Francisco, the company is a wholly owned subsidiary of PG&E Corporation.

There are approximately 20,000 employees who carry out PG&E's primary business—the transmission and delivery of energy. The Company provides natural gas and electric service to approximately 14 million people throughout a 70,000-square-mile service area in northern and central California. Our customers include over 20,000 schools, 3,000 hospitals, 20,000 high-tech companies and 700 military facilities. As the primary gas and electric service provider for Central and Northern California, PG&E has impressive size and territory that stretches from Eureka to Bakersfield and from the Pacific Ocean to the Sierra Nevada. PG&E provides electricity to over 4.9 million customers and gas to over 3.9 million customers. PG&E is determined to expand opportunities which enhance our commitment to diversity, safety, environmental stewardship, and corporate integrity.

Contract Opportunity Description:
PG&E, in conjunction with Southern California Edison (SCE) and San Diego Gas & Electric (SDG&E), will conduct a Request for Proposal (RFP) with firms to measure and evaluate the load impacts for the California Statewide Capacity Bidding Programs in accordance with the Load Impact Protocols adopted by the California Public Utilities Commission in Decision (D.) 08-04-050. The evaluation seeks to estimate program year 2021 and 2022 ex-post impacts and program year 2022-2033 and 2023-2034 ex-ante impacts.

The scope of work required for this RFP will be pursuant to D.08-04-050 and can be found here:

https://docs.cpuc.ca.gov/word_pdf/FINAL_DECISION/81972.pdf.

The successful bidder may bid individually or with specified subcontractors, with expertise in demand response evaluation. Successful bidders must have experience managing complex projects and coordinating work across multiple teams, including existing demand response programs.
